-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention: Fig.1, Fig. 2, Fig. 7, Fig. 8, Fig. 9, Fig. 11, and Fig. 12.
2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, i.e., one of the following: Fig.1 or Fig. 2 or Fig. 7 or Fig. 8 or Fig.9 or Fig. 11 or Fig. 12, for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

the prior art, the evidence or admission may be used in a rejection under 35

U.S.C. 103(a) of the other invention.

As a courtesy to the Applicant, the Examiner notes that the word "topology" as used in the claims is not defined in the disclosure. A dictionary defines topology -

to·pol·o·gy (te-pòl'e-jê) *noun*

plural to·pol·o·gies

1. Topographic study of a given place, especially the history of a region as indicated by its topography.
2. *Medicine*. The anatomical structure of a specific area or part of the body.
3. *Mathematics*. The study of the properties of geometric figures or solids that are not normally affected by changes

in size or shape.

It is not clear at this point how to interpret the claims, and if not amended or given a proper explanation supported by the disclosure, the claims would be eligible for rejection under 35USC112, 2nd paragraph.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ehud Gartenberg whose telephone number is 703/308-2634. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Justine Yu can be reached on 703/308-2675. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
